#825BP Blood Pressure Register...

ANEW Home Health Care, a licensed and certified Home Health Care Agency, used our **NEW #825BP** as a handout at several local trade shows and to their clients. Accurate, current information is vital to good health care.

ANEW Health Care Services provides skilled nursing, rehabilitation therapy, medical social

services, home health aides and personal care services. As part of their supportive care, the #825BP is being used to track blood pressure readings which helps in creating the best care plan for each client.

The Blood Pressure card holds 64 readings, dates and times. Monitoring your blood pressure can help: 1. Obtain early diagnosis of high blood pressure. 2. Improve the effectiveness of your medications. 3. Lower your risk of heart attack, heart disease, stroke and kidney disease.

Thanks to Missy Bruckner with Wild Impact for allowing us to share this idea.
